

ForgeRock and NIST

Quickly Achieve and Maintain NIST SP 800-63-3 Compliance

NIST's SP 800-63-3 says, "Digital Identity is hard." But it doesn't have to be. ForgeRock's Identity Platform, the most complete and flexible identity management solution in the industry, provides government agencies with an easy-to-use, simple-to-understand interface while handling the "hard" work of digital identity management behind the scenes.

So, how exactly does ForgeRock help you achieve NIST's SP 800-63-3 compliance?

Download our paper, ForgeRock and NIST Special Publication 800-63-3, to:

- Learn how the ForgeRock Identity Platform approaches NIST SP 800-63-3 compliance.
- Understand how to map user authentication options to the applicable assurance levels.
- Get simple examples of how an administrator might configure the ForgeRock Identity Platform to achieve 800-63A, 800-63B, and 800-63C compliance.
