Shannon Kalvar
Research Manager, IT Service Management
and Client Virtualization, IDC

Matthew Marden
Research Director,
Business Value Strategy Practice, IDC

August 2021 | IDC Doc. #US48090721

As organizations consider their future of work and the technologies that will make them successful, understanding the value of their investments will be crucial. Download this whitepaper, IDC created in conjunction with VMware, to learn how organizations have realized a return on investment (ROI) by supporting their employees and business operations with access to more flexible, cost-effective, and high-performing critical applications using hybrid-cloud VDI and DaaS with VMware Horizon.
