VMware Greenplum on Samsung Drive Brings Enhanced Performance

White Paper: September 2023

VMware Greenplum
Reference Architecture
Using Samsung PCIe
Gen-5 NVMe Value
Kit Drives

vmware·

VMware Greenplum customers require ongoing improvements and optimization to the underlying hardware that is deployed across Greenplum server clusters. In partnership with Samsung, we have developed a performance, power and cost optimized recommended server platform that benefits from the latest Samsung solid state drive (SSD) storage solutions technology.

This white paper will provide an overview of the recommended VMware Greenplum Server Platform that features Samsung PCIe Gen 5 drives and the Samsung SSD Value Kit, which features enhanced performance with energy savings.
