COHESITY

From ransomware to resiliency: How IT leaders fought cybercriminals—and won

Gartner reports that by 2025, 75% of IT organizations will face one or more attacks. And every time a cybercriminal succeeds, the organization is damaged—financially and often reputationally. With so much at stake, enterprises must evolve their security posture—and start prioritizing data security along with perimeter and access security.

Download this ebook and read the real-life stories of four IT leaders who fought—and won—against ransomware.

- Gain insights into the anatomy of a breach
- Learn from the experiences of IT leaders during such attacks
- Discover how these organizations successfully recovered and strengthened their security posture for the future
